

# SnowDome

## Concept

- \* A totally unique and novel seasonal attraction to WOW your customers
- \* Get inside the fun this winter with the newest, most exciting and practical promotional tool available to Shopping Malls, City Centres, and corporate events.
- \* Effectively convey a highly original and seasonal message to all your customers and visitors.

# SnowDome

## Description

- \* The Snowdome is a clear PVC “Bubble” into which a floor has effectively been fitted.
- \* A giant Christmas backdrop of the full width and height of the dome is installed, and carefully chosen floor decorations add to the atmosphere of a cosy Winter image.
- \* Special effects can be used to create falling snow (Optional), giving the ideal scene for a real live Christmas picture for private or corporate use.
- \* Floodlighting, a suitable music system & crowd control equipment are also provided.
- \* Crew for setup & operation are also available.
- \* Additional giant Snowmen / Santas are also available ( Optional)

# SnowDome

## Process

- \* Guests access through the rear entrance
- \* Decorations can be chosen or re-arranged according to the client's preferences
- \* A constant fresh air supply is pumped into the dome.
- \* The entire process takes approx. 1 minute per set.

# SnowDome

## Photography

- \* A professional Photographer can be provided and a photo service arranged for the individual or family shots taken.
- \* Alternatively, the Shopping centre / corporate client can arrange its own “in-house” photographic service.
- \* The Snowdome can also be effectively used where the guests take their own photographs with their own personal cameras, etc.

# SnowDome

## Technical Info

- \* The Snowdome is provided with a 220v 5a Inflation blower, which runs constantly during the event. This provides stability, shape, and a constant fresh air supply inside the Snowdome.
- \* Flood lighting is provided with 2x tripod stands. Many other lighting effects are available on request.
- \* The Music system can play suitable music at a comfortable volume.
- \* The Snowdome can be used Indoors or Outdoors down to -5deg. C.
- \* Snowdomes from our own stock are available in 4m and 6m sizes. Other sizes available are 3/5/7 and 8m for special order long term rentals.
- \* The complete equipment set requires 1 hour to set up for our 2 crew.
- \* The 4m Snowdome & standard support equipment weight is 140kg\*.
- \* We can facilitate a turnaround of up to 60 sets of guests per hour\*.

# SnowDome

## Marketing points

- \* The Internal Backdrop can be customised to the clients exact wish (special print order required)
- \* Product placements within the internal decoration can personalise corporate applications.
- \* Photography services can be adapted to suit each events' particular need.
- \* The sale of personalised printed Christmas Cards can recover all rental costs plus generate additional income.

# SnowDome

## Additional information
